

# 2016 CLARK CJ100H

---

The Heavy Duty Pallet Jacks are built for high hours applications and features the same exceptional maneuverability, rolling ease and versatility as the standard CJ55 while adding increased durability. An additional foot release mechanism, unique pump piston dust cap, a more durable bell crank design and incorporated one-piece reinforced forks provide greater strength.

---

## General

Manufacturer	CLARK
Model	CJ100H
Year	2016
Price	Request a Quote
Category	Material Handling Equipment
Subcategory	Pallet Jack

---

## Operational

Capacity	10,000 lbs. (4,536 kg)
Fork Length	32 - 48 in. (812.8 - 1,219 mm)
Fork Height	2.9 in. (73.66 mm) lowered 7.75 in. (196.8 mm) raised
Fork Width	6.5 in. (165.1 mm)
Wheels	7 in. steer wheels Steel

---

## Dimensions

Weight	300 lbs. (136.1 kg)
--------	---------------------

---

## Features

- 200° pivot action for greater maneuverability with 7 in. polyurethane wheels sealed bearings and "Ball-Thrust" steering
- 6 helper rollers for easy exit and entry of pallets
- A unique pump piston dust cover prevents damage to the top seal from dust and debris, new additional foot release pedal provides operation versatility
- All of the Heavy Duty Pallet Jacks boast a quality powder coat finish
- Articulating axle allows for level transport of loads on uneven floors
- Ductile iron cast bell crank that offers maximum strength

## Features

---

- Full 90° top to bottom stroke requires only 13 strokes to raise the forks to maximum lift
- Leak proof hydraulic pump, with overload capacity, the maintenance free pump features a hard chrome plated lift cylinder and piston, quality polyurethane seals and wipers and an easy to remove cartridge design
- Reinforced 1-piece forks for added with solid tapered ends for increased strength and easy pallet entry
- Rugged heavy-duty frame constructed of 1-piece formed double C-channel steel and reinforced gussets offering light weight strength
- Spring-a-matic handle that returns to upright position automatically
- The 1-piece hangers are constructed of Iron Cast for greater strength and longevity
- The adjustable push rods allow for individual adjustment capability of either fork height
- The control handle has 3 positions, (raise / neutral / lower) fingertip control, ergonomically designed and free of pinch points
- Utilizes self lubricating high impact brushings and lubrication fittings at all pivot points for improved maintenance capabilities
